GRADUATE COMMENTS

The primary objective is to teach aspects of hypnosis and its applications as thoroughly, scholarly, and completely as possible. Our graduates testify that we meet our objectives.

A truly amazing experience in such a short time. I learned and continue to learn from Capt. Eslinger. How to teach, our own professional development, business coaching, thought & paradigm shifting, the HGH, hypnosis and health care professions have a great asset in their midst. I like that he emphasizes qualification and standardization to continue to improve the profession. Lena, Karen, and Wilma were all extremely supportive and warm. Ramzy Ayachi 4/18/2016

Far exceeded my expectations! This training enhanced my skills and my confidence level. As a psychotherapist, I recognize the value to my clients. Randi Konikoff 4/18/16

A real-life educational experience! Very down to earth and highly useful. This courses teaches you to teach. Not a review of what I already know. Ron brings out each students strength to others while at the same time addressing their weakness and turning the weakness around. Very personalized attention to each student. An absolutely awesome experience. Robert Bass - Beebe, Arkansas

Excellent learning experience from classes presented, instructor's additional input, and from other students. Very glad I took this class by this instructor at this time. Jim Smith – Cabot Arkansas

I would like to take this opportunity to comment on the training that I received by you at the Healthy Visions Hypnosis Wellness Center in May of 2009, to become a NGH Certified Instructor (Train the Trainer Course). The content and presentation of this class was superior to any other training that I have received. Your depth of understanding not only of hypnosis but also in the preparation and presentation of material for your students was fantastic. Your confidence in your teaching skills and dedication to your students was inspiring.

I have just finished teaching an approved NGH hypnosis certification course here at our Center in Cincinnati and can say without a doubt that my confidence and skills as a Hypnotist and an Instructor have improved greatly as a result of attending your class. These results translate into my students being better informed, better trained and therefore ultimately better prepared as NGH Certified Hypnotists.

Downtown
Clinton, TN**

This Training does not teach you hypnosis. This Training teaches you how to teach a NGH Hypnosis Certification Course. How to get course materials. How to setup your training in your office, hotels, and other possible classroom locations. How to answer student questions, How to deal with difficult students. How to use teaching materials.

You will learn the logistics for running a successful certification course

6. Use the success formula for yourself.

**YOUR WEEKS AGENDA
Monday—Friday 9-5
October 2-6, 2017
\$1995 Payable to NGH**

Design, Develop and Market Your CH Classes Based on the NGH Foundation

Day #1 - Monday

Review pre-course pretest and pre course assignments. Teaching assignment are sent out for pre-course preparation.

You have decided to be an NGH Certified Hypnosis Instructor (CI). The class starts with Why and How you get started. Answering questions like. Why are you qualified to teach others? Where will you get your students? Where will you teach your classes? How to create a schedule to meet your 2-classes a year obligation to continue as a CI?

Day #2 - Tuesday

You are taught how to teach and practice hypnosis from the first to the last chapter. You learn how to do demonstrations, supervise practicum and use the tools and scripts provided by NGH and Healthy Visions. You receive CI video clips to enhance your class knowledge and participation.

Start practice teaching and discussion beginning with lesson 1 of NGH Book one.

Day #3 - Wednesday

Start practice teaching and discussion beginning with Lesson 1 of NGH Book One.

Day #4 - Thursday

Start practice teaching and discussion beginning with Lesson 19 of NGH Book Two.

Day #5 - Friday

Finish Q&A NGH Book Two. Final exam and graduation dinner.

Each day will be flexible and based on attendee's responses.

"Excellence is the gradual result of always striving to do better." ~Pat Riley
